

OUTDOOR CO-EXTRUSION WALL CLADDING

Discover the beauty of the outdoors with our co-extruded WPC wall panels, setting new industry standards with exceptional weather resistance and minimal fading. Lightweight and easy to install, our panels offer a rich wood texture, bringing lasting beauty to your space.

OUTDOOR CO-EXTRUSION DECKING

The WPC co-extruded decking collection extends the exceptional outdoor resilience of our co-extruded wall panel series. Designed for versatility, it is ideal for enhancing decks, patios, and landscapes with its enduring beauty and strength. This series promises a decade of color fidelity, enabled by advanced UV Armor technology, ensuring a maintenance-free, vibrant outdoor living space.

OUTDOOR CO-EXTRUSION TIMBER TUBE

The outdoor co-extrusion timber tube series offers unparalleled durability and aesthetic appeal for outdoor spaces. Ideal for exterior wall decoration, fencing, and grape trellis, it provides a sustainable, weather-resistant solution that blends seamlessly with natural environments.
